ARCHITECTURE AND URBAN PLANNING

Maciej Delnicki	
<i>Problems of creating spatial order of building development in post-agricultural areas</i>	5
Ewa Grabowski	
<i>Polish city as perceived by a US grown urban planner</i>	23
Krzysztof Kafka	
<i>Urban Planners in Poland. Practicing the urban planning profession in Poland and other European countries</i>	39
Wojciech Bobek, Katarzyna Łakomy	
<i>Contemporary processes in historical urban greenery areas and the selection of materials – introduction to research</i>	53
Valeriy Tovbych, Anna Viazovska, Yuriy Kryvoruchko	
<i>Place and people: landscape as a basis of development and preservation of cultural identity</i>	65

CIVIL ENGINEERING

Magdalena Grudzińska	
<i>Greenhouse systems in quasi-stationary and dynamic modelling</i>	73
Tadeusz Majcherczyk, Katarzyna Kryzia, Zbigniew Niedbalski	
<i>The influence of rock mass disturbance on surface subsidence in urban areas</i>	83
Karol Prałat, Ewa Krymarys	
<i>A particle size distribution measurements of selected building materials using laser diffraction method</i>	95

ELECTRICAL ENGINEERING

Volodymyr Samoty, Sergii Telenyk, Petro Kravets, Volodymyr Shymkovych, Taras Posvistak	
<i>A real time control system for balancing a ball on a platform with FPGA parallel implementation</i>	109

ENVIRONMENTAL ENGINEERING

Marek Kubala, Jadwiga Królikowska, Dariusz Wawrentowicz	
<i>Evaluation of the practicability of the decomposition and equivalent substitution method in the analysis of reliability of the sewage system</i>	119
Michał Grodecki, Cezary Toś, Marcin Pomierny	
<i>Excavation supported by diaphragm walls – inclinometric monitoring and numerical simulations</i>	129

MATHEMATICS

Adam Bednarz, Ludwik Byszewski

Continuous dependence of mild solutions on initial nonlocal data, of the nonlocal semilinear functional-differential evolution Cauchy problems of the first and second order 141

MECHANICS

Augustyn Lorenc, Maciej Szkoda, Elżbieta Wyrz

Methods of identifying the optimal positioning of different products within a warehouse with regard to minimising the costs associated with order picking 149
