Issue 4

BEYENS L., BOBROV A.

Evidence Supporting the Concept of a Regionalized Distribution of Testate Amoebae in the Arctic 197–209

BOBROV A.

Description of a New Testate Amoebae Genus *Meisterfeldia* with Notes on the Systematics of the Suborder Phryganelina (Amebozoa; Tubulinea; Arcellinida) 211–219

FÉRES J. C., PORFÍRIO-SOUSA A. L., RIBEIRO G. M., ROCHA G. M., STERZA J. M., SOUZA M. B. G., SOARES C. E. AND LAHR A. D. J. G.

Morphological and Morphometric Description of a Novel Shelled Amoeba *Arcella gandalfi* sp. nov. (Amoebozoa: Arcellinida) from Brazilian Continental Waters 221–229

GERASIMOVA E. A., PLOTNIKOV A. O.

New Freshwater Species of Centrohelids *Acanthocystis lyra* sp. nov. and *Acanthocystis siemensmae* sp. nov. (Haptista, Heliozoa, Centrohelea) from the South Urals, Russia 231–237

GÓMEZ F., WAKEMAN K. C., YAMAGUCHI A., NOZAKI H.

Molecular Phylogeny of the Marine Planktonic Dinoflagellate *Oxytoxum* and *Corythodinium* (Peridiniales, Dinophyceae) 239–248

MARCOTEGUI P. S., BASSON L., MARTORELLI S. R.

Trichodinids (Ciliophora) of *Corydoras paleatus* (Siluriformes) and *Jenynsia multidentata* (Cyprinodontiformes) from Argentina, with Description of *Trichodina corydori* n. sp. and *Trichodina jenynsii* n. sp. 249–257

CASAL G., MATOS E., ROCHA S., NETO J. S., AL-QURAI SHY S. AND AZEVEDO C. S.

Ultrastructure and Phylogeny of *Pleistophora beebei* sp. nov. (Microsporidia) Infecting the Amazonian Teleostean *Brachyhypopomus beebei* (fam. Hypopomidae) 259–268

VÁVRA J., HYLIŠ M., FIALA I., REFARDT D. AND LARSSON R. J. I.

Microsporidia in a Woodland pool I. *Lanatospora costata* sp. n. (Opisthosporidia, Microsporidia), Parasite of *Megacyclops viridis* (Crustacea, Copepoda): Fine Structure and Molecular Phylogeny 269–277

MANSOUR L., THABET A., HARRATH A. H., AL OMAR S. Y., ALWASEL S., MUKHTAR A., SAYED S. R. AND ABDEL-BAKIA A. A.

New Microsporidia *Glugea sardinellensis* n. sp. (Microsporea, Glugeida) Found in *Sardinella aurita* Valenciennes, 1847, Collected off Tunisian Coasts 281–290
