Contents

ARCHITECTURE AND URBAN PLANNING
Julia Kurek, Justyna Martyniuk-Pęczek
Forecasted climate changes and their influence on cities and regions in 2050 in terms of extreme hydrological events ...................................................... 5
Cecilia Maria Roberta Luschi
Among the archaeologists and the designers: a critical survey of Sant’Andrea of Acre in Israel .................. 27
Krzysztof Petrus
The restitution of Garbary, Cracow’s largest suburb, after the destruction caused by the invasion of archduke Maximilian Habsburg in 1587 .......................................................... 39
Mariusz Twardowski
Football Stadiums – Icons of Sports Architecture ................................................................. 53
Elżbieta Węcławowicz-Bilska, Martin Vaščak
Contemporary transformation of traditional Polish health resorts against the background of changes observed in balneological centers around the world ............................................... 71

CIVIL ENGINEERING
Kazimierz Furtak
The effect of changing loads on the deflection of RC beams reinforced with ribbed bars .............. 87
Piotr Woźniczka, Marek Piekarczyk
The fire resistance of steel plate girders with slender webs – a comparative study ....................... 97

ELECTRICAL ENGINEERING
Wojciech Czuchra, Bartosz Woszczyzna
Measurement and simulation testing of harmonics in the on-board power grid of traction vehicles ......................................................................................................................... 105
Marek Dudzik, Janusz Prusak, Sławomir Drapik, Valeriy Kuznetsov
The efficiency of using artificial feedforward neural networks with a single hidden layer of eight neurons for the analysis of overload conditions of selected tramway traction substations ........................................................................................................................................ 119
Dominik Oćwieja, Paweł Markowski, Janusz Prusak, Bartosz Woszczyzna
The range of load variability of rectifier units with a concentrated disposition of tram substations as exemplified by a real tram line ........................................................................... 133

ENVIRONMENTAL ENGINEERING
Barbara K. Wilk, Aleksander J. Urbański
The impact of the shape of screen openings on groundwater flow to a deep drilled well ........ 149

MECHANICS
Kinga Brózda, Selejdak Jacek, Peter Koteš
Analysis of the crack width of beams reinforced with FRP bars .................................................... 163
Ryszard Dindorf, Piotr Woś

*Sensorless step positioning of hydraulic linear actuator* ............................................................... 169

Agata Dudek, Barbara Lisiecka, Katarzyna Strzelczak

*Assessment of the quality of epoxy coating in the automotive industry* ................................. 175

Czesław Kundera, Tomasz Kozior

*Assessment of mechanical properties of pa 3200 gf polyamide models made by SLS* ........ 181

Dominik Kwiatkowski

*Air consumption survey for pneumatic cushion in different nozzle configurations during moving loads* ........................................................................................................................ 187
